

# HEALTH & SAFETY AWARENESS IN CONSTRUCTION

**Duration: 1 Day**

## COURSE AIM

This qualification gives people who are already working, or wanting to work, in the construction industry, the essential knowledge to manage health and safety. Passing this qualification also allows them to take their CITB test and to apply for their CSCS card.

## CERTIFICATION

On completion candidates will be awarded a NOCN Health and Safety Awareness in Construction that can be used as part of the CSCS 'Green' card application.

## DID YOU KNOW WE ALSO OFFER THE FOLLOWING COURSES?

- Vehicle Banksman
- SSSTS
- IPAF
- PASMA

## WHO SHOULD ATTEND?

This qualification is designed for people already working, or wanting to work, in the UK construction industry; all construction businesses have a legal responsibility to provide their employees with relevant health and safety training. A high standard of health and safety protects employees' and consumers' health and helps to maintain the reputation of the business.

## COURSE CONTENT

**Delegates will cover the following areas.**

- Risk assessments and method statements
- Personal Protective Equipment
- Emergencies and first aid

- Reporting accidents
- Fatalities and ill-health in a construction environment.

The content of this qualification will also prepare learners for their CSCS card application and passing the CITB test.
